

Making a “Major” Decision

It can be somewhat difficult to decide what path to take with so many majors available. Here are some helpful questions to ask yourself when trying to decide on a major:

- What subject areas am I most passionate about?**
- What skills do I have?**
- What is my background/work experience?**
- Do I want to continue in my current career path or take a different direction?**
- Do I want to stay in Sioux Falls, or commute to main campus?**

There are many majors out there, so it is best to gather all the information you can on the majors you are most interested in. Start out by checking out the website from which your major of choice is found.

University of South Dakota www.usd.edu
South Dakota State University www.sdstate.edu
Dakota State University www.dsu.edu
Northern State University www.northern.edu
Black Hills State University www.bhsu.edu
South Dakota School of Mines and Technology
